

RANJEET KUMAR RAJANI

Commercial & Sales Analytics | Pharma Commercial Operations | Business Intelligence

Fairfield, IA • +1 (641) 233-9348 • ranjeetkumarrajanii@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Pharmaceutical commercial leader with 15+ years running sales teams, territories, and revenue performance at leading pharma companies in Pakistan. Now pairing that frontline commercial judgment with a modern analytics toolkit — Power BI, SQL, R, Tableau, and AI-assisted workflows — and an MBA in ERP & SAP at Maharishi International University (Fairfield, Iowa) to turn commercial data into decisions that grow revenue. Directed 40+ person field forces, delivered a 450% segment revenue turnaround, and traced a \$4.34M revenue shortfall to its root causes using a 45-measure Power BI model.

CORE COMPETENCIES

Commercial & Sales Analytics: Sales-vs-Target Performance Management, KPI Reporting & Dashboards, Revenue & Territory Analysis, Sales Forecasting, Quota Attainment Analysis, Customer Targeting & Segmentation

Data & Business Intelligence: Power BI (DAX, Power Query, Star Schema Modeling), SQL, R (Tidyverse), Tableau, Advanced Excel (PivotTables, KPI Dashboards), Data Cleaning & Visualization

AI & Process Acceleration: AI-assisted analytics workflows — accelerating dashboard development, data validation, and insight documentation; applying AI to speed commercial reporting, root-cause analysis, and decision-making

Commercial Operations: CRM / SFA (MRep) — Call Reporting, Territory Management, Distribution Tracking; Patient Support Programs; Cross-Functional Collaboration (Medical, Marketing, Supply Chain); Stakeholder Reporting; Hospital Tenders & Formularies

ERP & Leadership (supporting): SAP S/4HANA (FI/CO, MM, PP), Procure-to-Pay Configuration, Business Process Mapping; Team Leadership (40+), Training & Coaching

PROFESSIONAL EXPERIENCE

Ferozsons Laboratories Ltd. | Karachi, Pakistan

Leading Pakistani pharmaceutical manufacturer specializing in gastroenterology and hepatology therapeutics

Regional Patients Support Manager

Jul 2024 – Oct 2024

- Built weekly Excel KPI dashboards tracking revenue-vs-target, stock availability, and territory coverage to guide data-driven resource allocation across the regional portfolio.
- Directed a team of Zonal Sales Managers, aligning field execution and reporting with revenue targets and compliance standards.
- Oversaw MRep call reporting and territory data across the regional portfolio, ensuring consistent KPI tracking and data quality across zones ahead of leadership reviews.

Ferozsons Laboratories Ltd. | Karachi, Pakistan

Senior Zonal Sales Manager

Aug 2023 – Jul 2024

- Audited sales-vs-target, forecast, and distribution data through the MRep CRM platform, turning reports into Power BI and Excel presentations that guided resource allocation and beat quarterly revenue targets.
- Partnered with medical, marketing, and supply chain teams, using product-availability data to eliminate stockouts; analyzed competitor and prescription data monthly to protect key-account share.

Ferozsons Laboratories Ltd. | Karachi, Pakistan

Zonal Sales Manager

Feb 2022 – Aug 2023

- Directed a 40-person field sales force, reallocating effort across territories using MRep performance data — exceeded annual quota at 116% in both 2022 and 2023.
- Built a territory performance tracker across 30+ healthcare institutions, expanding regional coverage by 25%.
- Led the national launch of Prulevity (Prucalopride), prioritizing high-potential accounts through account and territory analysis to capture 40% market share within 12 months.
- Implemented a client satisfaction scoring system, lifting customer retention scores by 20%.

CCL Pharmaceuticals | Karachi, Pakistan

Pakistani pharmaceutical company known for its hepatology and gastroenterology product portfolio

Sales Manager — Speciality Therapeutics

Feb 2018 – Feb 2021

- Delivered a 450% revenue turnaround in the Hepatology segment in Year 1 by diagnosing an underperforming territory through dashboard reporting, then expanding HCP coverage and call quality; led a 12-person team across Sindh and Baluchistan.
- Sustained 175% and 150% year-over-year growth in Gastroenterology in Years 2 and 3 through ongoing territory performance tracking.
- Designed a monthly SKU-level performance dashboard across four cities, cutting issue-detection time by two weeks.
- Delivered monthly Best Practices in Sales & Service (BPSS) training, upskilling 12 representatives in consultative selling, CRM/call-reporting data usage, and sales-vs-target tracking.

Getz Pharma | Karachi, Pakistan

Pakistan's leading pharmaceutical company, with a strong specialty care and cardiology portfolio

Area Sales Manager — Key Institutional Accounts

Jan 2013 – Feb 2018

- Led 5 Territory Managers across premier institutions (Aga Khan University Hospital, NICVD, JPMC), growing market share by 20% through account and tender data analysis.
- Secured multi-year government hospital tenders through quarterly territory data analysis; lifted team productivity 30% with weekly KPI reviews and structured coaching.

KEY ANALYTICS & ERP PROJECTS

Pharma Commercial Analytics Command Center — Power BI, DAX, SQL, Star Schema (2026)

- Built a 7-page Power BI report on a 9-table star schema (4 fact tables, 5 dimensions) spanning 24 months, 20 territories, 128 healthcare accounts, and 6 brands, with 45 DAX measures reconciled line-by-line to source data.
- Traced 30% of a \$4.34M revenue shortfall (\$1.31M) to inventory stockouts rather than sales execution, classifying all 20 territories by root cause — supply, competitive, or execution — each mapped to an accountable function; built a month-index key enabling month-over-month and rolling analysis.
- Accelerated delivery with AI-assisted workflows across DAX development, data validation, and documentation — from raw data to business decisions, faster.

Cyclistic Bikeshare Capstone, Google Data Analytics — R, Tidyverse (2026)

- Cleaned and analyzed 4.3M+ trip records in R, applying documented rules to remove zero-duration and over-24-hour rides; found casual riders average 22.8-minute rides vs. 12.1 for members, with 8x seasonal variation against under 3x for members.
- Delivered five ggplot2 visualizations and three data-backed marketing recommendations, including seasonal membership promotions and e-bike incentives.

SAP S/4HANA Procure-to-Pay Implementation — SAP MM, FI/CO, IDES Sandbox (2026)

- Configured end-to-end P2P in the IDES sandbox, mapping the full cycle from purchase requisition through vendor payment and GL posting.
- Redesigned approvals to eliminate a 3-step bottleneck, cutting simulated procurement cycle time by 18%; produced process documentation and a stakeholder presentation covering gap analysis and recommended configuration changes.

EDUCATION

MBA, Enterprise Resource Planning (ERP) & SAP — Maharishi International University, Fairfield, IA (Feb 2026 – Oct 2028)
